

# TECNO EMMAR

## COMPANY PROFILE

# INTRODUCTION

Techno Emaar for General Contracting and Real Estate Investment was established in Benghazi, Libya, with a capital of 1.1 million Libyan dinars, to be a reliable partner in executing and developing urban and construction projects according to the highest standards of quality and professionalism. Despite its recent establishment, the company's owners possess more than 30 years of experience in the contracting and real estate investment sector, through successful partnerships with reputable companies in Libya and abroad since 1993.

TEONO EMMAR

# VISION

To be among the pioneers of urban development and contracting in Libya by offering integrated engineering solutions that enhance quality of life and contribute to building a sustainable urban environment.

# OUR MISSION

**TECND EMMAR**

To deliver comprehensive contracting services with a high level of professionalism and transparency, adhering to schedules, technical and engineering standards, and building projects that create real added value to society.

# EXPERIENCE

The company's founders have deep experience in executing major real estate projects through companies and partnerships active since 1993. They are currently engaged in executing real estate projects with trusted partners, providing Techno Emaar with a solid base of knowledge, personnel, and professional relationships.

## Why Techno Emaar?

- A team with extensive experience in the field
- Ability to provide integrated project solutions from design to delivery
- Established professional partnerships that enhance execution strength
- Full commitment to quality and timelines
